OBJECTIVE OF THE SEMINAR

Information Technology has become an integral part of our daily life. Information Technology is the single, most rapidly changing and growing industry in the world. In this fast-paced world, technologies invented today may become obsolete tomorrow. Individuals within these organizations continue to face the challenge of developing and implementing the latest technology. The seminar aims to bring together innovative academicians, researchers, scientists, industrial experts in multi-disciplinary field and provide a platform to acquaint & share new ideas on the emerging trends in Information Technology. The aim is :

- To provide a platform for discussion and exchange of ideas on the main theme as well as various sub themes.
- To invite technocrats, IT professionals, Industrial Researchers and intellectual to a common forum.
- To examine Concept, Significance and Applications of Vedic studies and information technology for mutual growth.
- To facilitate New Research.
- To open the new dimension of Research Project and Experiments.
- To reengineer new dimensions of Vedic informatics.
- To identify Major Research agenda for future.

In order to fulfil these objectives, a critical sample of sub-themes has been suggested. However, scholars have the freedom of going beyond the listed sub-theme and plan a thematic presentation of his / her area of research.

GUIDELINES FOR THE SUBMISSION OF PAPER:
